THE DAILY JOURNAL

the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL
Have a combined circulation larger than that of any interior journal of Nevada, excepting those the Comstock.

NEWS OF THE MORNING.

Wm. Pisback has been appointed Postmaster at Bristol, Lincoln county, Nevada.

The Emperor of Austria has granted a general amnesty in Bosnia and Herzegovina.

The grave of Commodore Vanderbilt has been walled up with masonry and is closely watched.

The money-order service for the past year yielded a profit to the Government of about \$3,000.

The Paris Exhibition finally closed Saturday afternoon. The receipts since the opening were 12,653,746 francs.

Among the passengers on the Soylbia, which sailed from Liverpool yesterday, is Milton S. Latham of San Francisco.

The noted temperance advocate, Francis Murphy, commenced a crusade against rum in New York last Sunday.

Wm. Riorden, under arrest in Virginia City for forging a check for \$1,782 on John Mackay, is missing—having left the city.

Henry W. Larkin, formerly one of the proprietors of the Sacramento Union, died in San Francisco Sunday, aged fifty-nine.

The subscriptions in Glasgow to the fund for the relief of the City of Glasgow Bank shareholders, amounts to £93,000, and in Edinburgh to £27,000.

On the night of November 23, the office of *We the People*, a newspaper published at Alexandria, Louisiana, was entered, and the press, material, etc., scattered along the halls or thrown into the river. This paper was the organ of ex-Governor J. Madison Wells.

Last Saturday afternoon, while the vats were being varnished in Bergner & Engel's brewery, Philadelphia, a candle fell into the varnish, when a fire started that in three hours burned the two principal buildings and 10,000 barrels of beer. Total loss about \$200,000; fully insured. Two hundred hands are thrown out of employment.

A dispatch from Vienna says the insurgents on the frontier of Roumelia, and in many places in Macedonia, are recruiting men under 35 years of age, and among the elders, for the defense of their homes. The insurgents are well armed and provisioned. The Turks are confident of suppressing the insurrection if reinforcements arrive speedily.

The Sierra Nevada Mining Company has filed a certificate of increase of capital stock of the Company from \$10,000,000, divided into 100,000 shares of \$100 each, to \$50,000,000, divided into 500,000 shares at \$100 each. A copy of the minutes, showing the action of the stockholders, avers that 89,356.30 shares were voted in favor of the increase.

The New York *Herald* prints the following double headed: "About 2 Monday morning one of the police officials who have been actively engaged in working up the case, stated as a positive fact that the detectives had at last succeeded in obtaining information relative to the whereabouts of Stewart's remains. 'The entire facts,' said this official to a *Herald* reporter, 'will be made public very soon. It is now only a question of brief time when the remains will be secured. We have learned enough to indicate where the remains are held, and we are sure of being able to arrest the thieves.' The other journals have hints to the same effect. Meantime rumors multiply, some reporting that the body has been shipped to Havana, others that it has been traced to Jersey City and sunk in the water.

GEN. COLTON'S SUCCESSOR.—Mr. Stephen T. Gage, well known in railroad circles has succeeded to the honors and employments of the late Gen. D. D. Colton, in the employ of the Central and Southern Pacific Railroad Companies.

CALIFORNIA'S NEXT GOVERNOR.

Already the voters of California are becoming exercised over the election to take place in that State next year. The *Spirit of the Times* says that the candidates for Governor on the Republican side, begin to loom up, and we presume by the time the convention is held in June next, their name will be legion. Thus far we have Hon. George C. Perkins, ex-State Senator, a partner in the well-known house of Goodall, Perkins & Co. Hon. M. M. Estee, ex-Speaker of the Assembly, and at present a member of the Constitutional Convention, Mr. Estee received the complimentary vote of the Republicans in the last Legislature for United States Senator. Genl. Geo. S. Evans, ex-State Senator, and the peer of any man in the State as a parliamentarian. He has been Adjutant General and filled many other important positions in California, and all of them faithfully. Hon. Horace Davis, at present member of Congress from the First, or San Francisco District. Hon. T. G. Phelps, ex-member of Congress. Hon. John F. Swift, ex-member of Assembly, now on his way to California from Europe, where he has been passing a few months; Hon. Frank M. Pixley, lawyer, editor, scholar, brilliant and forcible writer, outspoken, fearless and courageous, he is the best known of all our Argonauts. Hon. J. McM. Shafter a member of the Constitutional Convention, a profound thinker and able man. This is the record thus far; of course there will be others. If we have any say about it Geo. C. Perkins should be the nominee. In our opinion his nomination would be equivalent to an election. In him the people would have a true friend; the State a competent Executive; the Republican party an able representative.

The Sacramento *Bees* briefly sums up the amendments already made by the Constitutional Convention, as follows:

1. The recognition of Almighty God.
2. The admission that the Constitution of the United States is the paramount law.
3. The assertion that witnesses shall not be unreasonably detained or improperly confined.
4. Modifying the jury and grand jury systems.
5. Foreigners, not eligible to become citizens or who do not reside here, shall not hold real property! (This reaches the Chinese.)
6. Chinese servitude prohibited.
7. No more appropriations to private charitable institutions.
8. The declarations of the instrument are not directory merely, but in all cases mandatory.

The man who caused to be published notices in the papers, offering in the name of the Superintendent, work to laborers in the Milton Company's mines, at French Corral, Nevada county, Cal., by which a number of workmen were deceived into making a useless journey to that place, has been discovered in the person of John Kuhlman, proprietor of a hotel at French Corral, who did it for the purpose of making business for his house. He has been indicted by the Grand Jury for false personation, the penalty for which is a fine not exceeding \$5,000 or two years in the county jail. He has been caught in a bad scrape, which is likely to cost him dear.

ANNUAL FAIRS.—The time for holding the Annual Fairs, in 1879, has already been determined upon by three of the principal associations. The California State Agricultural Society has fixed upon Monday, September 8th, as the opening day; closing on Saturday the 13th. The Golden Gate District Fair Association opens on Monday, September 1st; closing Saturday the 6th; and the San Joaquin Valley Agricultural Society, has named Tuesday, September 17th, and closing Saturday, September 21st. It would be well if the other societies would conclude as soon as possible as to the time of holding their respective fairs; consummation most desirable and decidedly advantageous.

The Russian Government is making preparations for trying 340 Nihilists, who are now confined in Odessa. Many of them have been in prison since 1876, and of these six will be tried separately for attempting to murder one of their companions, suspected of informing the police. During the trial the guard will be increased and the police supplied with revolvers.

THE GOVERNOR ELECT.

The Winnemucca *Silver State*, of Saturday last, has the following to say of John H. Kinkead, Governor elect:

John H. Kinkead, the Governor elect of Nevada, arrived here to day from the west. He met with an enthusiastic reception, the people, regardless of party, turning out to receive him. As Humboldters, all rejoice in his election to the chief magistracy of the State, and were it not for the fact that Bradley made an unexceptionably good Governor, and people felt that he was entitled to consideration, Kinkead's majority would have run up in the hundreds in Humboldt County.

It is a little remarkable that in the fourteen years which Nevada has been a State, out of the nine candidates, some of whom were Democrats and others Republicans, nominated for State offices from this county, only one was defeated. The nomination of a Humboldt by either party for a State office, judging by the past, is equivalent to his election.

We congratulate Governor Kinkead upon his success. He was the choice of the *Silver State* from among all the candidates on the Republican side for the Governorship, and believing, from a personal acquaintance of years with the gentleman, that he would make a good Governor, it observed during the campaign a strict neutrality between him and Governor Bradley, satisfied that either would perform the duties of the office creditably to himself and satisfactorily to the people.

INSTEAD of bridesmaids, fashion in France now prescribes two tiny pages, who are chosen from the prettiest of the boy relatives of the bride or bridegroom. These are dressed in velvet, of the bride's favorite color. At a recent wedding the tiny court dress worn was a sapphire velvet, with white with silk stockings and velvet shoes with diamond buckles. A bouquet composed of a rosebud, an orange blossom, and a bunch of myrtle is attached to the left side. They perform the usual role of the bridesmaid, carry the bride's misal bouquet, and gloves, and in addition, meet her and assist her from the carriage step.

COMING TO NEVADA.—Two or more surgeons from the National Surgical Institute will be at the Arlington House, Carson City, Nevada, Monday and Tuesday, Nov. 11th and 12th, 1878, where they can be consulted by the afflicted. This institute has won an unqualified reputation throughout the United States for the treatment of deformities, such as crooked limbs, club feet, disease of the hip and ankle, spinal curvature, paralysis, pities and fistula. This is a rare opportunity to be cured at home. Consultation free.

The New York *Tribune* gives as the latest Congressional returns 134 Republicans, 148 Democrats, 11 Greenbackers, and adds in this table that California, which elects four members next September, is counted as the delegation now stands (two Republicans and two Democrats). The Republicans expect to regain the Third District. If this be done, the Democratic majority over all in the next Congress would be reduced to one.

A WESTERN paper hints that Miss Nellie Haseltine, of St. Louis, set afloat the story of her engagement to Mr. Tilden merely to advertise a grand charitable performance of "The Mistletoe Bough," in which she was to appear, and without any expectation of two contingencies—that the news would be given to the Associated Press and a public denial returned instantly, and that the reporter to whom she had told the story would "give her away," as he did promptly in self-defense.

In the last twenty years land to the value of \$20,000,000 has been sold in large estates—not to mention what has been sold in small—in Shropshire, England. There is a common delusion that it is difficult to buy land in England. A glance at the advertising columns of the *Times* and *Field* will readily dispel this.

A CANDIDATE.—Hon. A. A. Sargent, is said to be a candidate for Congress, in the Second District. He has just purchased a fine building lot in Oakland, which may have been for the purpose of making an impression on the people of Oakland.

The Democratic papers in this State agree on a verdict for the cause of the defeat in the late election: "Too much third term."

THE STATE VOTE.

The Returns come in very slowly, and we are unable yet to give the full vote from many of the counties. Below we give in tabular form, all the complete Returns received up to date, and we will add to it as fast as they are received:

THE CHINESE GOING.

The Citizens' Safety Committee have been actively engaged for the last few days, says the *Republican*. They have succeeded in getting the Chinamen to consent to build across the river, below the bridge. They obtained, by subscription, a considerable amount of money to apply toward the payment of the lots owned by Chinese in the old Chinatown. They have made no effort toward intimidation, but on the contrary are fair and even generous in their treatment of the Celestials. There is no desire to gobble up the lots belonging to the Chinamen. The citizens say that no man shall build on the burnt district until all questions have been amicably arranged. The feeling prevailing among the Chinese is rather too much for average Caucasian endurance. All Truckee says, let them be paid fair prices for their lots and improvements, let them be fairly dealt with in regard to the selection of the new site, but do not permit them to build fire rafts in the very heart of town.

SIERRA NEVADA MINE.—The report from this mine, says the *Chronicle*, is that crosscutting was begun Sunday night, on both the 2100 and 2200 levels. The crosscuts on the 2200 start about 15 feet east of the vein—one north and the other south of the incline—so that the ore will probably be reached by Wednesday. There is a report current among mining men that it is the intention, as soon as the crosscut has got fairly into the ore vein, to turn its course northward with the vein, the object being to connect with the winze or shaft now being sunk from the 1700 level. The crosscut started south of the winze will be run "for blood" right across the vein. Now comes the tug of war!

The edelweiss is so much sought after by visitors to Switzerland that its entire disappearance in some districts is only a question of time. To prevent so undesirable a result, so far as Obwalden is concerned, the authorities of that canton have forbidden the uprooting of the plant (not the taking of the flower) under penalty of 50 francs for each offense.

SUCCESSFUL STOCK OPERATIONS.—There is much talk about stock operations and the rapid fortunes that are amassed by them, but very few people understand just how it is done. Messrs. Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City, have published full details of their new Combination Method of operating in stocks, which is wonderfully successful. By pooling the orders of thousands of customers into one immense sum and operating them as a whole, each patron is placed on an equality with the largest operator, and vast profits are divided *pro rata* among shareholders every thirty days. \$25 makes \$100, or 400 per cent. on the stock in the month; \$100 makes \$750, or 750 per cent; \$150 makes \$1,500, and various profits according to the movement of stocks. Safety and success are the distinguishing features of this system. S. Y. Sanger, of San Francisco, Cal., writes: "I have never made so much money in so short a time as I have by your Combination System." The new circular, (copyrighted and sent free) explains all details. All kinds of stocks and bonds wanted. New Government loan supplied. Best references. Address Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

Mr. Underwood Ill.

E. E. Underwood, Assemblyman elect from Wadsworth, had a severe attack of rheumatism lately, brought on by exposure while canvassing during the late campaign. Dr. Bergman was called to tend him, and reports that he will be well enough to attend to his duties in Carson this Winter, if not before. We hope so.

Coming for Him.

G. W. Avery has received notice that the officers will be in Reno to-night from Los Angeles to take charge of Jose Pico, arrested on a charge of murder. A reward of \$200 was offered for his arrest shortly after the murder, and no doubt Avery and Wilbur will receive it if the prisoner is the one needed.

Notice.

All members of Washoe Encampment No. 2, I. O. of R. O., are requested to be present at our next regular meeting on Friday evening, Nov. 15th, at 7 p. m. sharp, as matters of great importance will be brought before the Encampment.

Per order, W. SANDERS, E. C.

Down a Well.

A few days ago a little Wadsworth girl fell down a well at that place. It was 32 feet deep and had 18 inches of water in it. The child was rescued immediately and when brought to the surface was found to be without a scratch or bruise.

Deputy Controller.

The Eureka Sentinel states that Wm. B. Dougherty is to be Deputy State Controller under Hallock.

JONES, the man who was recently tarred and feathered in Reno, spends most of his time reading the hotel registers in San Francisco. He carries two loaded revolvers, and will talk with nobody. It is surmised he is insane.

The ladies of the Methodist Church propose getting up a Thanksgiving dinner on the 28th for the benefit of the church. The necessary committees have been appointed, and they will go to work immediately and get up a fine dinner.

Our table of State election returns is made interesting this morning by the additional of the official vote of Lyon, Eureka and Lander county.

A PROSPECTOR'S FATE.

Yesterday morning as Ike Johnson, of Truckee Meadows, was traveling over a lonely country about four miles southwest of Deep Wells, some sixteen miles from Reno, he came upon the bones of a man, bleached and dried from an exposure of at least fifteen Summers and Winters. Near the bones lay a complete prospector's outfit, consisting of pick, shovel, ax, frying pan, milk pan, coffee pot, gold scales, spring balances, butcher knife, case knife, the remains of a yellow blanket coat and a brown blanket. Johnson gathered up the bones and the utensils and brought them to the Coroner Dr. Hogan, who has the bones, says they are those of a large, powerful man. That he was a prospector is evident from the outfit he had, but what caused his death is of course a mystery and must always remain so. No doubt loved ones East fondly picture the absent one at rest in some quiet church yard. It is well for them that his fate is not known. How many a young man left home to find a fortune in California only to meet a fate like unto this one, and the bright hopes all fade away into an unknown, unwept grave.

About Reno.

L. R. Freeman, of the Ogden Freeman, whose presence we noted with us not long ago, writes about us as follows upon his return home:

At midnight we debark at Reno. The town is situated at the base of the Sierra Nevada, and the country roundabout it is irrigated with water from the Truckee river. This river has its source in the famous Lake Tahoe in the Sierras and plunges down the mountain sides, affording ample water power for manufactures, and flows out in the desert easterly along the line of the railroad to Wadsworth, and then bears sharply north and empties into Pyramid lake. Reno bears the same relation to us on the west that Cheyenne does on the east, the two places being about equidistant from this railway centre. Reno possesses advantages in proximity to timber and agricultural lands, and the ready markets of the people, who either directly or indirectly gain their livelihood from the productiveness of the great Comstock mines, such as Cheyenne can never hope for.

The valleys in Northeastern California, as well as Washoe valley on the south, together with the Truckee at home, yield a revenue to the tradesmen of Reno that is not to be despised. The town has a population of 2,500 people, and numbered among these are some of the most energetic men in the State. There are about twice as many business houses as Ogden contains, although there are not more than half so many people, and the persons found in them are energetic, go head, speculative forty-niners, who believe in conquering empire instead of allowing empire to conquer them. This is the case not only in ordinary business matters, but applies especially in view of the fact that Chinatown is in ashes and the former site occupied by the exposition building of the State Fair.

Ogden scarcely supports one up-town hotel or restaurant; Reno runs a dozen night and day. Everything about the place has a bright and rustling appearance, and everybody's business seems to be satisfactory. They make business; they do not wait for business to make them. The way they do it, is first by supporting three daily newspapers. The papers do the rest.

Worth Seeing.

The new Winter stock of clothing of L. Abrams is well worth being examined by those who wish to post themselves in regard to what is the style in overcoats, dress suits, business suits and, indeed, clothing of every kind. Their stock is so large and so great is the variety of goods, that all tastes may be suited, both as regards style and quality. The prices will be found most reasonable and such as no sensible man is likely to find fault with. Let those who want anything at all in the clothing line give this house a call.

Reno Honey.

James Sullivan, of Truckee Meadows, on Saturday took to Virginia City a two-horse wagon load of as fine honey as we have ever seen on the Pacific coast. The honey was in small boxes, just as it was deposited by the bees. These boxes were retailed at \$2 each, and went off as rapidly as though there had been hot buckwheat cakes in the neighborhood. The comb in which the honey was deposited was of snowy whiteness.

JOHN H. HARRIS, District Attorney elect of Storey, was in town yesterday; also G. W. Bryant of the Mint.

OCTOBER was a bad month for the marine underwriters. The total number of vessels belonging to, or bound to or from, ports in the United States, reported totally lost and missing during the past month is 85. Of this number 54 were wrecked, 17 abandoned, 2 burned, 1 sunk by collision 1 capsized, 8 foundered and 3 are missing; divided as follows 3 steamers, 3 ships 14 barks, 7 brigs and 58 schooners. The total value of the above craft, exclusive of their cargoes, is estimated at \$1,362,000.

A MAN in Paxton, Ill., seized with an uncontrollable desire to take human life, assailed his wife with a knife. She escaped from the house, as did other members of the family; but a baby was left behind in its cradle, and was immediately slaughtered.

Mr. and Mrs. Terrell, of Houston, Texas, liked an orphan girl so well that they decided legally to adopt her as their daughter; but, just as the papers were ready for signing, Mr. Terrell made up his mind that he would prefer her as a wife. And he eloped with her.

TOM FITCH, the silver tongued, has been playing Richelieu, with Mrs. Fitch as Julie, down in Prescott. It was under the auspices of an amateur dramatic association. The papers say Tom's Richelieu is grander than McCulloch's.

The election of a Jones' Legislature in Nevada is a compliment deserved by the Senator. The popularity of Senator Jones no doubt aided materially the Republican party throughout the State.

The Republican press rejoice over the election of Daggett, of the Virginia Enterprise, to Congress.

DANCING SCHOOL.—J. W. Varney will open a class for gentlemen, at the Academy of Music, commencing Friday evening at 8 1/2 o'clock, November 19th, 1878. All the late dances taught. Tuition, \$3 for four lessons, in advance.

J. W. VARNEY.

CARL VON NETZER, late professor of Mt. St. Mary's Academy in Reno, is prepared to receive pupils in Latin, German, French, Surveying, Assaying, Guitar, Singing, Drawing and Fencing. Inquire at his residence in Moran's new building, Centre St., near the depot.

PARTIES knowing themselves to be indebted to me either by notes or accounts are hereby notified to come forward and settle the same by Dec. 1st, or collection will be enforced by law.

A CARD TO THE PUBLIC.—I do not sell any goods 20 per cent. below cost, or even at cost, but I offer my first class stock of clothing, furnishing goods, boots and shoes, hats and caps, trunks and valises, etc., etc., which have been bought for cash, at the lowest market rates. Therefore I wish the public to post themselves on my prices before going to the humping shops where they are always drumming into the ear that they are selling at cost, or below cost. They either believe unobtainable goods or they lie to deceive the public; they don't deserve to be patronized. Remember the One Price Store.—The White House—No. 19 Commercial Row, next door to the Postoffice.

SIMMOND'S NABOB WHISKY!

CONSUMERS ARE REFERRED TO the following extract from the report of the eminent public analyst: "This is a pure barley and wheat spirit remarkably in fragrant ethers, which impart a delicate aroma, at the same time greatly increasing the value as a digestive stimulant. The solid residue contains a large amount of tannin, derived from storing in oak casks, which imparts to fine old whisky one of its valuable individual qualities. The amount of the residue proves the whisky to be free from the excessive coloring and sweetening so generally used in adulterating. In fact, in two words it is the PUREST WHISKY, and will not only supply a public want now, that whiskies are so generally adulterated, but will be of the greatest value to the physician in those numerous cases where pure whiskies are the most useful of all medicines." We are, gentlemen,

Faithfully yours, G. SIMMONDS.
